

# PLACE REIMAGINED

## School Tours & Art Programs, Gr. 1-8

The Art Gallery of Algoma will be offering education programs for our current exhibition, *Place Reimagined*, of artwork from the gallery's permanent collection.

### EXHIBITION OVERVIEW

*Place Reimagined* presents how artists included in the gallery's permanent collection have thoughtfully depicted different places, both real and imagined, through painting, printmaking, sculpture, photography and mixed-media artistic practices. Realistic and recognizable sites are presented alongside semi-realistic and abstract interpretations of places to highlight the diverse ways that artists have shown the places that they see and experience. The exhibition groups these artworks into the themes of place, people and environmental issues to encourage reflection about the different ways we can see and understand places. We invite classes to explore the exhibition, and be inspired to create their own artworks!

### TOUR AVAILABILITY

Tours will be available for grades 1 to 8, in-person or online.

For classes participating in an in-person tour who would also like to do the art project in the studio, space is limited to classes of up to 30 students. For larger groups please choose the hybrid tour option.
